

# Home Helpers® Home Care

## INTEGRATED WELLNESS

Our holistic approach to home care provides a customized care plan for reaching each client's optimal wellness. We look at these 5 key factors when our nurses develop the client care plan: Safety, Physical Exercise, Emotional/Social, Nutrition & Hydration, and Mental Exercise.

*Our staff are carefully trained to execute our plan of care so that the most favorable results can be achieved*

Customized memory exercises and specialized activity planning to promote memory wellness

Walking to wellness plans, individual exercise plans, holistic approach to physical, speech and occupational therapy

Whole foods, supplements, proper hydration and specialized menu planning for disease management

Planned social activities, family communication and support, and thoughtful services designed to keep the client happy

# Home Helpers® Home Care

## WINNER OF THE NATION'S HIGHEST QUALITY AWARD

We contract with Home Care Pulse, the national leader in consumer research and quality assurance for the home care industry.

Home Care Pulse annually surveys the clients and caregivers for over 3,400 home care companies nationwide.

For 2022, we are extremely honored to be included in the Home Care Pulse Top 100 home care companies in the United States. This places us in the Top 2% in North America.

We are the only home care company in southeastern Wisconsin to earn this recognition.

Owners, Tim Bireley and Laura Bireley, RN with Laura's "Granna" - their inspiration for helping others

## MEMORY AT HOME

**Memory at Home** provides families the option of 1 on 1 compassionate and customized care for their loved ones who struggle with dementia and other cognitive issues in the safety, comfort and familiarity of their home.

**Memory at Home** education and training has been developed by world-renowned dementia and Alzheimer's Disease expert, Teepa Snow.

Through our investment and commitment to helping clients with this disease, the majority of our staff are **Certified Dementia Specialists**, our nurses are certified dementia coaches and expert consultants, and we have a certified trainer on staff. All of these resources are here to help you and your family.

Our approach to dementia care is based on the **Teepa Snow Positive Approach to Care GEMS** system. This approach allows our nurses the ability to determine the stage of dementia and then develop a care plan with the appropriate resources, training, and oversight required to best help the client and their family.

## Our Personal Service Summary

- Our caregiving approach allows our clients to "age in place" with 1 on 1 care.
- Each client has a nurse assigned to develop a customized care plan and oversee and manage all care provided.
- Your nurse is available for care conferences, scheduling and attending physician appointments, and various skilled nursing services, such as medication management, care management, wound care, etc.
- Our standard 8 hour/shift minimum allows for much more consistency as this corresponds to our full-time caregiving staff.
- In addition to our nurse oversight of all care, Home Helpers specializes in dementia care with our Memory at Home program. The majority of our workforce are Certified Dementia Specialists with additional Certified Coaches, and a Certified Dementia Trainer.

### Fee Schedule

Standard Rate (8 hour/shift minimum)	\$36.00 to \$44.00/hour
Care Management / Skilled Nursing Care	\$125.00/hour

Note - Prices are subject to additional hourly surcharge if we are actively caring for two people.

# Home Helpers® Home Care

**We Hire for**  
**LIKABILITY & COMPASSION**  
**We train for**  
**SKILLS & KNOW HOW**

The exceptional level of care that our caregivers provide to our clients cannot be achieved without a foundation of likability and compassion. From there, we provide the training and skills necessary to provide the very best care

### OUR CAREGIVERS
