

Home Helpers® Home Care

Our Personal Service Summary

Our caregiving approach allows our clients to "age in place" with 1 on 1 care. Each client has a nurse assigned to develop a customized care plan and oversee and manage all care provided.

Your nurse is available for care conferences, scheduling and attending physician appointments, and various skilled nursing services, such as medication management, care management, wound care, etc.

In addition to our nurse oversight of all care, Home Helpers specializes in dementia care with our Memory at Home program. The majority of our workforce are Certified Dementia Specialists.

Home Helpers® Home Care

1 on 1 Customized Care in Your Home

Home Helpers® Home Care

■ Nurse Forward ➔

We believe there is no one better to plan, coordinate, and oversee the home care experience than a qualified home care nurse.

Many of our clients live alone and/or their families are not local, or they are very busy with their own lives, families, career, etc.

Our nursing team is there to help schedule appointments, transport our clients to their appointments, ensure any medications are obtained, and report back to the family all the valuable information so that the client and their families have peace of mind.

Our Nurses:

- Oversee and manage each client case
- Attend hospital & rehab discharges
- Conduct home safety assessments
- Are Certified Dementia Specialists
- Provide skilled nursing services
- Develop personalized care plans
- Routinely visit all clients
- Schedule & attend medical appointments
- Train all caregiving staff

Home Helpers® Home Care

Memory at Home

Memory at Home provides families the option of 1 on 1 compassionate and customized care for their loved ones who struggle with dementia and other cognitive issues in the safety, comfort and familiarity of their home.

Memory at Home education and training has been developed by world-renowned dementia and Alzheimer's expert Teepa Snow

Through our investment and commitment with this disease the majority of our staff are Certified Dementia Specialists. These resources are here to help your family.

Our approach to dementia care is based on the Teepa Snow Positive Approach to Care GEMS system. This approach allows our nurses the ability to determine the stage of dementia and then develop a care plan with the appropriate resources, training, and oversight required to best help the client and their family.
